In order to prepare your individual income tax returns before April 16th, we need to receive your information no later than MARCH 12th. Absolutely no information received after this date will be prepared for April 16th filing. However, we will happily file an extension for you free of charge and then complete the return as soon as possible after April 16th. Please keep in mind, however, that an extension only allows more time to file your returns. It does not allow you more time to pay any taxes due. Paying your taxes after April 16th may result in penalty and interest charges even if your returns were extended.

Based upon when we receive your complete information, the following discounts will apply:
